Notes to the Condensed Interim Consolidated Financial Statements

***As at March 31, 2026 and for the three-month period ended March 31, 2026 and 2025
(Expressed in Canadian Dollars)
(Unaudited)***

1. Corporate Information and Nature of Operations

The business activity of ATEX Resources Inc. ("ATEX Resources" or the "Company") is the exploration and evaluation of mineral properties in Chile.

The Company was incorporated under the laws of the Province of British Columbia on January 20, 1981. Its common shares are listed for trading on the Toronto Stock Exchange ("TSX") under the symbol "ATX" and on the OTCQX under the symbol "ATXRF".

These condensed interim consolidated financial statements include the results of the Company's wholly-owned subsidiaries, ATEX Valeriano SpA ("ATEX Valeriano") and ATEX Chile SpA ("ATEX Chile"), both incorporated in Chile. The Company's head office is located at 1001-360 Bay Street, Toronto, Ontario, M5H 2V6, and its registered and records office is located at Suite 1700, 666 Burrard Street, Vancouver, British Columbia, V6C 2X8. The Company also has a local office in Santiago, Chile.

The business of mining and exploring for minerals involves a high degree of risk, and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interests in the underlying properties, the ability to raise additional financing as necessary, or alternatively, the ability to dispose of its interests on an advantageous basis.

2. Basis of Preparation

a) Statement of Compliance

These condensed interim consolidated financial statements are presented in Canadian dollars and have been prepared in accordance with IFRS[®] Accounting Standards ("IFRS") and International Financial Reporting Interpretations Committee ("IFRIC") interpretations as issued by the International Accounting Standards Board ("IASB").

These condensed interim consolidated financial statements are in compliance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"). Accordingly, certain information and disclosures normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed.

b) Basis of Presentation

These condensed interim consolidated financial statements have been prepared on a historical cost basis and have been prepared using the accrual basis of accounting. The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies. These condensed interim consolidated financial statements are presented in Canadian dollars. The functional currency of ATEX Resources is Canadian dollar and the functional currency of ATEX Valeriano and ATEX Chile is Chilean peso.

These condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company has no current source

of operating cash flow, and there can be no assurances that sufficient funding, including adequate financing, will be available to explore and develop its property and to cover general and administrative expenses necessary for the maintenance of a public company.

The significant accounting policies applied in these condensed interim consolidated financial statements are based on IFRS issued and effective as of March 31, 2026.

These condensed interim consolidated statements were authorized for issue by the Board of Directors on May 27, 2026.

c) Basis of Consolidation

These condensed interim consolidated financial statements include all subsidiaries of the Company. Subsidiaries are entities over which the Company is able, directly or indirectly, to control financial and operating policies, which authority is usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company and are deconsolidated from the date that control ceases.

These condensed interim consolidated financial statements include the accounts of ATEX Resources, ATEX Valeriano and ATEX Chile. All significant intercompany transactions and balances have been eliminated.

3. Material Accounting Policies

The financial framework and accounting policies applied in the preparation of the condensed interim financial statements are consistent with the policies disclosed in the annual consolidated financial statements for the period ended December 31, 2025.

4. Changes in Accounting Policies and Future Accounting Pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for annual periods beginning on or after January 1, 2026. Many are not applicable or do not have a significant impact to the Company and have been excluded.

Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)

In May 2024, the IASB issued amendments to *IFRS 9 - Financial Instruments* and *IFRS 7 - Financial Instruments - Disclosures*. The amendments clarify the derecognition of financial liabilities and introduces an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system. The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance ESG-linked features and other similar contingent features and the treatment of non-recourse assets and contractually linked instruments (CLIs). Further, the amendments mandate additional disclosures in IFRS 7 for financial instruments with contingent features and equity instruments classified at FVOCI. The amendments are effective for annual periods starting on or after January 1, 2026. Retrospective application is required, and early adoption is permitted. The Company has assessed that the changes are not applicable to its financial instruments held and disclosed.

Presentation and Disclosure in Financial Statements (IFRS 18)

IFRS 18, *Presentation and Disclosure in Financial Statements*, will be applicable for annual periods beginning or after January 1, 2027, with early adoption permitted. Even though IFRS 18 will not have any effect on the recognition and measurement of items in the consolidated financial statements, it is expected to have a significant effect on the presentation and disclosure of certain items. The Company's consolidated financial statements are expected to include changes related to categorization and subtotals in the statement of profit or loss, aggregation/disaggregation and

labelling of information, and disclosure of management-defined performance measures. The Company is in the process of determining the impact of the changes.

5. Critical Accounting Judgements and Estimates

The preparation of these condensed interim consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis for judgements about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgements are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

In preparing these condensed interim consolidated financial statements, the significant judgements and estimates made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited consolidated financial statements as at and for the period ended December 31, 2025.

6. Short-Term Investments

The Company's short-term investments are made up of fixed income securities, specifically short-term notes and Guaranteed Investment Certificates ("GICs"). For the three-month period ended March 31, 2026, interest of \$37,689 was earned on short-term investments and included in the statement of loss and comprehensive loss (2025 - \$nil).

7. Investment

On January 23, 2023, the Company, through ATEX Valeriano, acquired a 10% interest in Sociedad Contractual Minera Valeno ("SCMV"), the historic optionor of the Valeriano Project, from a third party, for a purchase price of \$1,538,868 (US\$1,150,000). As a result of this acquisition, the Company became an owner of 10% of the outstanding shares of SCMV, which holds the 2.0% NSR on the Valeriano Project. The option commitments were completed by the Company effective December 19, 2024, and the Company now owns 100% of the Valeriano Project as at March 31, 2026. The Valeriano Project is subject to a total 2.5% net smelter return royalty.

Management has assessed that the Company has significant influence in SCMV as the Company controls 33% of SCMV's Board of Directors. The Company accounts for this investment in associate under IAS 28 according to the equity method.

During the period ended December 31, 2025, the balance of the investment was assessed to be impaired and was written down to \$nil. The recoverable amount of the investment was determined based on SCMV's minimal operational activity to date. Substantially all of SMCV's net assets are the Company's shares. The share of net results of associate included in the statements of loss and comprehensive loss was \$nil during the period (2025 - \$nil) and the balance of the investment as of March 31, 2026 was \$nil (2025 - \$nil).

The Company maintains a stock option plan and a restricted share unit ("RSU") plan for certain employees, officers and directors of the Company. The maximum number of common shares reserved for issuance under these plans shall not exceed 10% of the outstanding common shares. The maximum number of common shares reserved for issuance to any one person under the plans cannot exceed 5% of the outstanding common shares at the date of grant, and the maximum number reserved for issuance to a consultant or a person engaged in investor relations activities cannot exceed 2% of the outstanding common shares at the date of grant.

On May 8, 2026, the Board adopted a fixed 10% omnibus incentive plan (the "Omnibus Incentive Plan") to replace the Company's existing rolling stock option plan and rolling RSU plan (together, the "Legacy Equity Plans"), subject to shareholder approval at the annual general and special meeting of shareholders to be held on June 22, 2026. The Omnibus Incentive Plan provides for the grant of stock options, restricted share units and deferred share units, with a maximum of 37,000,000 common shares reserved for issuance, representing approximately 10% of the Company's issued and outstanding common shares as at the record date. If approved, all outstanding awards under

the Legacy Equity Plans will be migrated to, and governed by, the Omnibus Incentive Plan, and the Legacy Equity Plans will be terminated.

i) Stock Options

The exercise price of each option granted under the plan may not be less than the Discounted Market Price (as that term is defined in the policies of the TSX Venture Exchange (the "TSXV")). Options may be granted for a maximum term of five years from the date of the grant, are non-transferable and expire within 30 days of termination of employment or holding office as director or officer of the Company and, in the case of death, expire within one year.

14.Segmented Information

The Company is principally engaged in the acquisition, exploration and development of mineral properties in Chile, representing one reportable operating segment. Substantially all of the Company's property and equipment, and exploration and evaluation costs, relate to the Valeriano Project in Chile. Substantially all of the Company's administrative costs are incurred by the Canadian parent, where substantially all of the Company's cash is held in the normal course of business until required for deployment to the Company's Chilean subsidiaries in support of ongoing and planned work programs.

15.Commitments and Contingencies

The Company's mineral exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations to protect public health and the environment and believes its operations are in material compliance with all applicable laws and regulations. The Company has made, and expects to continue to make, expenditures to comply with such laws and regulations.

In the ordinary course of business, the Company is involved in, and potentially subject to, legal actions and proceedings. The Company records provisions for such claims when considered material and an outflow of resources is considered probable. The Company is subject to tax audits from various tax authorities on an ongoing basis. As a result, from time to time, tax authorities may disagree with the positions and conclusions taken by the Company in its tax filings, or legislation could be amended, or interpretations of current legislation could change, any of which could lead to reassessments. The Company records provisions for such claims when an outflow of resources is considered probable.

16.Reclassification

Comparative figures for the three-month period ended March 31, 2025 have been restated to conform to the current period's presentation.

17.Subsequent Events

Subsequent to March 31, 2026, 37,313 RSUs were granted, 576,612 RSUs were cancelled or settled, 51,200 options were cancelled, and 1,200,000 options were exercised.

On April 21, 2026, the Company announced that, effective April 27, 2026, the Company's common shares would be listed for trading on the TSX under the symbol "ATX". Concurrently, effective at the close of market on April 24, 2026, the common shares were voluntarily delisted from the TSXV. The Company's common shares continue to trade on the OTCQX under the symbol "ATXRF".

On May 8, 2026, the Board adopted the Omnibus Incentive Plan to replace the Company's Legacy Equity Plans, subject to shareholder approval at the annual general and special meeting of shareholders to be held on June 22, 2026. The Omnibus Incentive Plan provides for the grant of stock options, restricted share units and deferred share units, with a maximum of 37,000,000 common shares reserved for issuance, representing approximately 10% of the Company's issued and outstanding common shares as at the record date. If approved, all outstanding awards under the Legacy Equity Plans will be migrated to, and governed by, the Omnibus Incentive Plan, and the Legacy Equity Plans will be terminated.
